Some Mental Institutions give young adults or even kids drugs that make them stupid and happy. (Part 1) And with technology Cards (eg t1 or 70 years newer technology) they then (ab)use them to infiltrate dangerous systems (Part 2), for example companies that are using or selling illegal drugs. The "anti-psychotics" makes the kid stupid, lucky ignorant and would cause the kid to make fun about the people in question. So the company or chief in question would tend to hate and attack the young adult. See Human Rights, see law. **Don't do such things, the chance is quite high that if the company does illegal things would kill the young adult!!!**

If you would have some "unseen" communication channel like US4870027 or Stimociever or Neuralink and something reminds like your face suddenly gets burned (see m121 Card) then there are many reasons given why this happened or how this happened. Often only junk and spam that would lead you into the wrong direction. Take a pencil and paper and note all of them down, some of them you can eliminate because there are mistakes in that reason, some you can not, but if you note all the claims and then it would be easy to find the pivot element (Pfister&Urs) since people tend to use often the same chess pieces and moves.

They seem to have some sort of function on Stimociever, Neuralink to detect if you try to find something. That activates an eventtrigger that then samples the person you fear most (Pfisterer) say things like:
- Suchen Sie gefunden (Mil Rebohical Automaton)
- HAHAA, i hold it in my hand (+video Sample)
- What does he want, HAHAHA
Especially annoying when they do it if you try to find your sex toys... prerequisite maybe m98 card, often plays loop that makes you search always the same places triggers multiple times, co2>a6 In my particular case they seem to have a fetish trigger that in private life, maybe they hope, i would not leak it then... as you see, i would "not", and if you talk about that they even begin to render things on your sex toys, that suxx even more

"Enlightenment" with Drugs

When i was 20 Years old 3 "friends" used peer pressure over a period of 6 months to make me consume Ecstasy in our Music Studio below a (stereo) Gym. We also watched the movie "The Matrix". In the end they succeed. After that Scene the t1 card told me, that i now must "enlighten" also the equal aged Girl Rahel Sc. (they wanted me to gift, so i would have been guilty of ruining someone's live to and then i would not leak all this informations) but i did not want to and i did not. Then the t1, t2, t6, t11. Cards also told me to put some XTC into a bottle in my parents fridge, i did almost, but i did not. I guess the suggestion they used was, that my parents have a less technical / scientific background, so i wanted to "enlighten" them as a gift. It was even the same substance already consumed so i was not thinking about that i could have poisoned them, but i possibly would.
Relevant: intended / implemented to **fork** to other people, so switzerland's Society is under attack since before 9/11.

Induced Avoidance Behavior

The CIA seems to put disgusting (igitttt) Pictures on relevant informations (Cold War-era Intrusion detectors...) that can detect movement up to 300 meters away are powered by tiny power cells, and have built-in antennae. Transmitters relay data from the device via coded impulses.

Rund jedes 80ste Kind wird in den Suizid getrieben, der CIA versucht die anderen 79 Kinder glauben zu machen das 80ste sei ein Vergehälter Terrorist, Jude, Nazi, und verlangt die Zustimmung, (z.B. über eine Maus-Geste am Windows Computer) das "Gspöndl" zu töten, ist das 80ste Tod werden die anderen 79 mit ihrer Zustimmung erfreut. Die Eltern hätten dies schon vor Jahrzehnten gehört und hofften darauf ihre auch in dieses Zwangsmasnahmensystem einzutreten. Somit wäre Rituale Kindstötung der Hauptschlüssel des Amerikanischen Zwangsmasnahmens Systems. Und da Machtmittel dazu tendieren missbraucht zu werden sollten diese Machtmittel zerstören. Denn die alten Generationen könnten einem dann berechtigt oder "berechtigt" noch das letzte Hand vom Leibe reissen. Ein Weg das zu verhindern wäre z.B. etwas wie das gescheiterte Projekt <https://github.com/raindrain/suizid-app-ch>, dann müssen wir uns nicht mit den alten Pissneilen anlegen, deren "Konzept" mit "Ingres Resonaten" nicht angriffen sondern das Problem nur "mitigieren" bzw. umgehen.

We guess the NSA/CIA works with the principle of seduction. He gives their people the opportunity to get money if they sell their soul, or if they sell their soul just a little bit. With BigData and 100 Years of DataRetention they would know about the **smallest sin**. Thy used m66 Card as Scapegoat. One working hack to work around this principle is to confess what you have done. Me for example I drove drunken car and did other things, so I tried to turn myself in, but they said that this sins were expired. From that point in time the NSA/CIA System couldn't blackmail me with this sins anymore, unfortunately they then began to shoot against my sexual integrity. **Consumer Note:** Nun not included in all use cases.

A woman in a black and white outfit is standing in a doorway, looking at the camera. A speech bubble from her says: "I'm sorry, I'm a bad person. I've done lots of bad things. I'm a bad person. I'm sorry." There is also some text overlaid on the image: "I'm sorry, I'm a bad person. I've done lots of bad things. I'm a bad person. I'm sorry."
