In case i would have found out, that they used her to make me controllable with my love to her and i would write a mail that this situation was the way the induce suicide they would "maybe" tell the direct opposite, and that i would have raped her. People would maybe not believe it. So they chemically castrate me. That the do drug tests on psychiatric patients is quite normal in switzerland as you can read in the press.

To chemically castrate the victim would be suggestive and manipulative and would give the criminal following benefits.
-> we would suggest that the victim is drive control criminal
-> no sex would maybe not be a reason to commit suicide
-> victim-bashing would maybe cause another suicide attempt
- it would be a mean chess move below the belt: "hahaha"

- it would make the jury focus on the sexual things instead of the 18 years the victim was abused as slave driven by his love not by his sexual needs. It's about truth, trust and the promise both gave. Maybe this is a normal way to drive rape victims in Switzerland into suicide, not sure so far about that...

The people seem to add psychological bombs to the victims or the whistleblowers. And seem to sell the igniting device or codes to the people that would go to prison because of that leak. So they might be some sort of business or trading platform. As soon as one would become a whistleblower all the small criminals would see a business model, and the people in power would of course buy the access codes for this sort of psychological booby traps. What do to me since at least 2002 is definitely not fair play. Aber das wissen die doofen Weiblein ♥ schon lange: "Shadows of materia condense". The most powerful Terrorist in Arau seems to buy all the booby traps and ignite them at once, so he definitely wants my death. And all those that provide him with such sort of psychological booby traps would then be part of the terroretwork. **Autopogenesis would be a problem here!** Maybe it are some alcoholics that hate themselves that have access all(?) to communication systems

Normally **CISPP** books explain, that there are Mandatory and Discretionary Access Control Systems. Unfortunately the Person that implemented it for t1 card decided to give older People always more access rights than younger people. **Older people can access the younger people even if they are naked or otherwise vulnerable, so the CIA creates Acceptance for the Global Surveillance Nightmare.** This leads to (cyber-)rape, makes older people using younger boys as weapons and don't care about if they die, or would run amok during the "mission". Exactly those things led me to do things like m32 or m44 (but so she nows im still ture). If you look below the image in this or m32 card (svg) then you would see, that there are some victims that are much more affected than i. The Access System should based on moral & intelligence, since a morally intact intelligent person would not risk lives just to watch naked kids. See also m71 Card.

Old pedo Parents "need to control" what daughters write in their diaries, letters, and of course "the daughters interest", that's what they claim, sex toys -- **just in the daughters interest**. but in fact that sort of parents are pedophile. Im at least 51% male but have similar issues, they render samples on objects in my apartment. They add Eventriggers like: "The open bottle on your dining table was poisoned while you were away", they even render things on things in my bedroom. A workaround I found is **sealing wax**, if you seal your **appartment**, bedroom, servCase... but before you leave, they still render **such things on your goods**, but if the seal isn't broken you know, they cheat and "just" render it on your goods **(Psychological Warfare)** The Loop "Neighbour Smith and Brothe Dominic was it" would intentionally start local conflict with a scapegoat that would distract from the real criminals.

UPDATE: one day after i released this card they added an eventtrigger on my door that distracts me to break the seal without checking. And drew some sealing wax into the elevator. (PsyWARI). This would be another hint that the criminals are old people with a lot of time.

There are many ways to end up in a mental institution. I guess peacefully painting is one of the ways.

It seems that you can identify the thoughts or words with the stimociver + 70 years or the Neuralink. To get the map or at least to get used to an idea of your map of the content they use against you just think of random things (people, objects, sex toys...) when they enabled the automated psychological warfare. So the system would transmit the objects, vocals and images linked to this specific keyword. Using paper and pencil to draw the map - even pre-printed templates or both simplifies this task.

The usual rhetorical automatism would be "Everyone has his price" even judges are for sale. We think "Everyone" is a rumor, i for example would never intentionally do harm to a younger child, not for 100'000'000\$. But many young people do not realize, that their wages actually are paid by Satan. Not informed by the company, that many people had to die for the profit, and if the young employee would ask relevant questions about illegal things company does they would fire him or more worse things like they did to Mollath (Germany) that not even worked there. Many rich people can easily hush murder and rape with money. They even buy the judge that wears a price tag instead of moral and justice.
