Often little-noticed archetypes in society: young employee, that has to give bad news to customer or other stakeholders. The Secretary behind the Windws Computer apologizes verbally non-verbally she enjoys her power (maybe her father was much to "imperative"?). Further the regulated income makes her as ignorant as a cocaine consumer. Lets play a risky shift. (Income  $\leftrightarrow$  Maslow SafetyNeeds fulfilled  $\leftrightarrow$  "self-esteem"  $\leftrightarrow$  dopamine release  $\leftrightarrow$  feels superior  $\leftrightarrow$  ignorance). One of the relevant scenes, why Robert De Niro then runs amok, running amok is a strong image that overwrites this scenes that has led to the amok, but maybe not in the subconscious of the participants, dt1 card, but the amok was maybe induced by t27 card

Since at least 1974 Hollywood shows technology enthusiasts as Terrorists, criminals... for example in the Movie "Juggernaut" where the "Hacker" wants to blow up a passenger ship. So this mindset is in the heads of our 1960s Parents, except they are themselves technology enthusiasts. We guess that's one reason, why the older generation sees us 1980s that like technology and also like the "Hands On" from Hacker Erics as Criminals. But in fact they only project their sins upon us. It's populism since they maybe would agree to give this role to a 1980s person, for not being the scapegoat anymore, but still having higher access codes than the 1980s and possibly much more sins that are bbeing used to make the 1950s attack the 1980s scapegoat.

Since the Roswell-incident, the CIA not just started to cover illegal Human Experiments with Alien Stories, they also actively hunt those, who could be able to leak details about the abusive system. In this case "Man in Black" or "Enemy of State" (just outdated technology stuff so they gave it to the world and the Farady Cage is not really a Faraday Cage...) greetings to Will Smith, b2w, the movies are cool for young boys except that detail.  
**Point No.1:** No it is not sexism, the boy would be more stubborn  
**Point No. 2:** Don't buy Assembler Books when your 14 Years old, see dt2 card  
**Point No. 3:** Not the girl would be on the dark side

## Voodoo-Lady™

Inventor: **xxxx** Year: 1990

**Role/Archetype**  
The Voodoo-Lady is the Role (maybe without even knowing it) that helps to obfuscate the technology-cards. Many people think magic works but don't believe in things like Stimoceiver, Active Denial System, ...  
This archetype does not only appear in *Monkey Island™* but also in "Pirates of the Caribbean" or in the Series *Bones* "The Man in the Morgue" SIE19, but Bones picks in his eyes and says: "If you picked someone in his eyes, voodoo isn't that spooky anymore".
