Since the Roswell-incident, the CIA possibly tried to keep illegal Human Experiments secret and told the people and victims that such incidents were Aliens "attacks". Those who found out tried to find a way to protect themselves are thrown out of the society. Because tin foil would possibly block things like the Stimoceiver Implants, they started to discredit this archetype in Media as a Crazy Person. Not sure if tin foil helped at all, possibly depends on frequencies magicians or better enslave them to calculate this for us for free.

Image: An Example of this archetype, discrete without tin foil: Henry Starling in Star Trek Voyager S03E08.

Capitalist archetype

If you know Star Trek then you know what this archetype thinks like. Focussing only on profit, ignoring the pain of the people they take the money from. Even risking lifes for profit.

Judge Archetype

The role of the judge is one of the most powerful in the system, in many movies shown as a fat "cute" Santa Claus. The role / chess piece would be perfect for a mastermind of a military dictatorship. If the judge and the jury is controlled by technology cards the accused would not get a fair process and nobody would even find out who decided to kill the accused, even if he is innocent. Weakness would be the a15 card. It would also be perfect for a foreign aggressor, secret service to subdue the whole system. In "To protect and infect part" (12:17) @ioerror says "is not clear to me, that a Judge would understand anything I just said", but that's wrong; that one does not use a15 card implies, that he knows, that the accused is innocent.

Instruments of power tends to be abused. So we can blame the instruments for not getting into trouble with the people that abuse the instrument of power. Justice Systems, Police, Guns, Tanks: things against the sexual integrity of a person, knowledge, knowledge about crime, Bigata, Computer, Finfisher, physical strength, martial arts... are all instruments of power like almost everybody i also abused power since everybody seemed to abuse it. Parents are also often a bad example where kids learn to abuse such instruments of power. I was mostly the guy that was victim of such abuse so it was rather easy for me to change the side: i began to confess all my sins, began to excuse and help those that were my victims. Spatially, i feel much better now. But unfortunately there are lots of older people that yet begin to confess, and they make me a lot of trouble, see m44 card.

IT Soldier Scapegoat

What if the system controls the controllers for having a scapegoat to protect the system?
