

Second use case for RUP Graphics

m11-01

Year: ~????

Inventor: xxxxx **Year:** ~????

Rational Unified Process means iterative software development process framework. People seem to use this Graphics (where there is an initial process that then triggers another processes) as a way for hiding their crimes. For example if you call a 20 years old guy (dark yellow) a criminal they would maybe get a permit for surveillance of this 20 years old "man" from the stalking jury it would look like the 20 years old "man" triggered all the problems (yellow, green, turquoise) the jury would maybe not notice the initial event that caused these events because they don't stalk the real criminal (red) so they maybe even decide to kill the boy (dark yellow). See the m37 Card. Maybe Red uses this concept even to hid crimes like murderer that he committed and then would use the jury to kill the scapegoat (m46->t1) the problem would be that if dark yellow is dead red would just take the next scapegoat and kill again. It is likely that red uses strong crypto and things like t1, t12... cards.

They have some sort of 3D Model of victims, whistleblowers, whitehat hackers, Lab Rats, Verdingkinder, apartment where they can set eventtriggers (t14) or even create an at1 out of their victim. Generated from eg. RetinaCCD (level_1, a19, Photogrammetry) or body telemetry (RFID in extremities) or an older system like resonant circuits. Maybe a persons position could also be extrapolated just from acoustic data, for example if you have more than 2 Laptops with microphone (see IEEE1568) and a model of the apartment. They have also access to my amygdala implant (a1) and at the same time triggering API (d13) programmed in 2002 with something like c12, t7, t32 card. The Apartment was selected by Blums in 2002 (interactive, bidirectional, almost killed me), I guess they are testing new systems, new socio-psychological design patterns, new Cyber-War equipment / patterns. They seem to use Loops to "hide" things even police is affected: they did not "saw" a laptop that was obvious on the table, they also "hide" wound care material, and that is really bad.

Das System verkauft das was das 1980er Kind sowieso tun würde (z.B. das erstelle dieser Karte) dem 1960er Pädakminenellen als "du hilfst dem kind, dein kind muss dir dankbar sein dass du es steuert" ... Wem das kind dann mit suizidversuchen beginnt sobald dieser Algorithmus auch bei ihm so eingespielt wird muss von pädakriminalität des 1960er elternseils, und auch von misshandlung durch den entsprachenden 1960er elternteil ausgegängen werden PESTIERER: SPRENGFÄLLEN AKTIVIEREN <- pestierer versucht mit terrordrohungen die Taten der 1960er Tierschafft weg zu "therapieren" (also zu verabschieden) terrorimuss einzublenden um das was oben steht zu überschreiben also offizieller Urs Blum allenfalls sprangstoff aus und da z.B. der Offizier Urs Blum allenfalls sprangstoff aus militär-beständen hat schüchtert das alle vorsätzlich ein. Allerdings hat der Pfisterer eine 1950er/1960er bereits versprochen dass die 1950er die 1980er verehren gewänter dürfen?? Pfisterer produziert mit m107 vorsätzlich Amokläufer

Induced Suicide

Inventor: xxxxx **Year:** ~????

Be careful and stick with equal aged. This image is from ~2014. They can induce such behavior. I guess they are using cocaine, but the Cocaine is in my opinion just licence-fees for computational timelots and malware on the Mainframe. Since they just play, consume and use it against me, they are sure one part of the problem but they are not the intelligent part of the problem. It would be very likely, that good people would develop such malware to prevent those 1960s people from using their real weapons. If they believe that they are powerful and could kill me if they just take enough of their cocaine, they will run amok against me or other innocent people. The CIA PsopPs induce suicide attempts (eg. with an active denial system) to generate "legitimate" surveillance warrants, but uses then the fact that he has access to the victim to make it more worse. (even if urs & astrid would want to "help" here they would make it much more worse, always bann people that make it more worse).
