If a person has to do all day the same, it is likely that these moves are burnt into his psyche (not even an implant required) if you would give a stimulus (eg. high noise sound at 15kHz, 16kHz, 17kHz...) you could link this move to a stimulus. t2, t11, formula see m76 Card.

So it would be likely that not only people like me that worked in robotics (t22 Card) are affected.

It would be the same like m70 card or in combination with m70 card.

## Loop Recorder Part 3

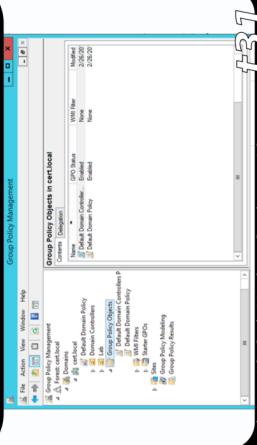

t32

**Year:** ~???

Like t10 or t23 a game engine (here Blender 3D) is also some sort of t7 Card, but it's not just a loop. It are more event-triggers (t14) or state machines (c0), for example if I leak about this sort of things a16 card is being activated against me. **They often use an event in real life to create this story, you would focus on the initial scene and the person instead of technology.** And possibly with AI / Deep Learning (a11 card) prerendered AI or genetic algorithm that learns. The card is in neutral gray, because you could use such technology also for good things but in my case they abused it more like **"weapon or white" tortoise** against me, that wants to kill. Book Erebos. The algorithm would maybe also try to **isolate whistleblowers and whitehats** that could be as simple like an inverted F=IVSr Card (Alex Wissner Gross) formula, not keeping all people connected but isolate some or even all.

## Group Policies

t31

**Year:** ~???

On Windows you can deploy group policies to a complete domain. People that are some sort of wannabe hitlers would enjoy it to impose their will upon others. I felt also cool when i was about 25 Years old that i am the "Master" but in fact i was just the scapegoat. Not quite sure if those who deploy things like a16, m50... to people or to a complete group of people are just older people that are using some similar software or if eg m50 card is deployed on all domains, eg by the NSA/CIA/DSMs.

**Giving a young whitewhat hackers drugs like zyprexa or illegal drugs (GFYS Matrix Red and Blue Pill) would let them to think, i must have been infected when i ate this.**

## Infrared Ray Weapons maybe in every Display

t38

<https://0x8.ch/HackersCardgame10>**Inventor:** ???

**Year:** ???

in my opinion this terror attack against me uses the m123 card  
- **acid in my body** **action**  
- > seal the closet  
- **infrared laser**  
- > maybe in aero display add polarization filter  
- **active denial systems** that roast first layer of my skin  
- maybe in combination with chemicals on my skin  
- or chemicals that was put into my body lotion, or  
- or even both (even 3 factors)  
-> **no solution yet**

## Antenna (Wasserflue)

t26

<https://0x8.ch/HackersCardgame10>**Inventor:** xxxxx

**Year:** ~???

As seen in Battle Filed Bad Company 2, the m-com station is shown as small box, but it would be more likely that these are big antennas like the one on the "Wasserflue" (in Küttigen near Aarau) Maybe one should find out the power the antenna uses and how strong the "drum-antennas" are and if it would be enough power to activate implants (maybe just a golden wire with lambda/in other Antenna card) to drive people insane or even drive tobias moser to commit suicide with his military weapon (as far as we heard)

**NOT YET PROVEN**

## 3D GAME-ENGINE (eg. CryEngine)

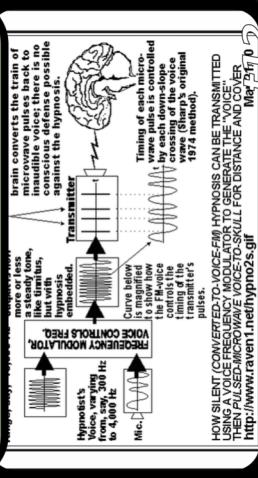

t7

<https://0x8.ch/HackersCardgame10>**Inventor:** Silas Warner**Year:** ~1990

Castle Wolfenstein (Muse Software) was maybe not the first 3D Engine, but maybe it was the first end-user 3D Engine. Like a SkinnerBOX wrapped as children's toy that uses invasive (eg t11 card) or non-invasive (eg t12, t18... Cards) technologies. Such games can be unidirectional or bidirectional (eg. b4 card). Similar to a network monitoring system possible with Plug-INS, which are partially not even accessible by the user, or as a separate addon that just evaulates symbols in the game (level card) or bigger things like Quantum Inserts, Turbine, Tarnillo, Game, fun, therapy or "therapy" Mayer-Briggs or even MMPI2. For example i bought a game, joined the server, saw the first enemy that had his back to me but i could not shoot him as a vegetarian.

## Microwave Hearing (Frey Effect)

t2

<https://0x8.ch/HackersCardgame10>**Inventor:** Allan H. Frey (Cornell Uni)**Year:** ~1961

"He Hears non-existent voices, **hahaha**", invisible communication channels, pulsed microwaves received directly by the cochlea. The exact frequency found by scanning through the possible frequencies, if the victim puts his hand to his ear ("tinnitus"); **Automatic Behavior Recognition**. Was 30 Years not patented until 1989 under US4877027. Technically it would have been possible to do this maybe already with electron tubes (~ 1900). Psychological Perspective: people that abuse such technology would keep that secret and previously labeled as a "Schizophrenic" the victim is completely defenseless and it is likely they induced **suicide** or **amok**. In combination with e.g. a loop recorder, see also c02 Card the perpetrators often caused permanent damage in the psyche of their victims: **PTSD** (#Verdingkinder / #Schwabekinder / #slaves)
