The existence of a **omnipotent Administrator**, especially if the **Mainframe** controls the whole world would / will destroy all beliefs: **belief in God**, belief in faith, belief in Religion, belief in beeing of use for anything

To promise **eternal life** would be a bad thing, better **do what you can do** aslong as you are alive, otherwise you would just be frustrated when life is about to end and you could not finish your lifetime Achievement.

The (neuro-) endocrine system is highly complex. So one can influence behavior and health with homeopathic doses of chemical substances, but also with behavior or radiation. For me it is complex to understand and im not sure if a doctor in endocrinology completely understands what would happen when you change just a small element in the complete system. If there is such a AI that helps the doctors to make patients healthy again it would maybe also subect to attacks. So hopefully some doctors are hackers to, I dont know a lot about medicine, but when i asked @unibas if they had a look at the insulin pumps they recommend to their doctors and students they did not answer. That was a few years ago when CCC talked about such things.

Maybe 'in the far future' we could be hypnotized by a QR CODE since the Neuralink would dissociate one by a specific QR-code. Calling one insane or schizophrenic would maybe help to hide what they have done to him. On the back of the ccd Sensor you could even have a small LCD for triggering things. (Stimulus-Response-Habits). So if unsure about that, **CLOSE EYES**. WHEN TYPING PASSWORDS. Even if a medic does something in hospital and sterile environment. You could loose permanently eyesight. So maybe **not the best idea**. Workaround for hacked RetinaCCD would be to jam the frequencies used by the RetinaCCD. Another thing would be to **find eye entral Server (CTA/NSA?)**, then one could prove that this system is **bidirectional**, that they stalked Marc ir since he was a 13 years boy old in Aarau BEZ (Écriture automatique). The cams that were installed by Alina AG would therefore be the scapegoats that distracts from this card, and that e.g. INSERT: 1960s parents stalked their **underage kids even in their beds**. More relevant they use Photogrammetry to create m89.

Mental Operating System would be a **almost coherent dogma room for lazy people**. Those who create those systems try to make as less mistakes as possible, so that the members don't have to much cognitive dissonances otherwise they would **start to think by their own**. But the creator adds backdoors and triggers to their dogma room, so he can control and trigger its members. There are antagonizing dogma rooms, eg. the Nazi Science, Mental Operating System, they would maybe be incompatible (m50 card). In my opinion the Jewish Science MOS has less bugs, but people with **low intelligence** would **have less ambiguity tolerance**. To show the Nazis where they have bugs could help to improve the situation. But if you find a younger Nazi that is on the wrong way but has not yet killed it would be to help him / her that (she) does not makes to much stupid things, I guess Nazis are victims of parental abuse to install moss3 to use them as a Human-BOT.

I guess the people are intentionally splitted in separate groups (divide et impera) by big sociopathic Student Associations. Throwing a kid an an Archnemesis group makes him/her feel bad, psychotic and agressive. If these big Student Agencies control also NSA/CIA/DSM5 they for example could do this with their **rituals, secrets, enemies...** Eg. illegal drugs obfuscates pedophilia and pedophilia obfuscates illegal drugs (to speak in the programming language java, there must be some sort of **interface**) it would also be likely that people that use illegal drugs are also prone to pedophilia and that are pedophile. *API URS Padophile* people would also be prone to illegal drugs. *E* DU verdammt schies wixer* For example XIC makes people lucky and love each other, so this people would maybe just be the lunch of those who consume cocaine that makes them feel more "superior". **Obfuscates the technology cards like Stomcoevler...**

It is likely that Mental Operating System Cards are Groups of people *MAIL* *FLU* that are all part of a group that seems to be driven to attack me. Relevant would be to find the person, that *PFRISTER: DJ makes the group attacking me. In my case they began to *API play FLU* multiple MOS cards at all the same time. So i found out that or at least i guess that all MOS cards have some sort of the same **abstract upper class**, with their **rituals, secrets, enemies...** Eg. illegal drugs obfuscates pedophilia and pedophilia obfuscates illegal drugs (to speak in the programming language java, there must be some sort of **interface**) it would also be likely that people that use illegal drugs are also prone to pedophilia and that are pedophile. *API URS Padophile* people would also be prone to illegal drugs. *E* DU verdammt schies wixer* For example XIC makes people lucky and love each other, so this people would maybe just be the lunch of those who consume cocaine that makes them feel more "superior".

This book seems to be suggested to people in Aarau, that had grandmothers in Aarau Gönhard as soon as they were the first time in the mental institution Königsfelden.
It talks about "magical crystals" like in the gemac Zak Mc Cracken. Talks about John von Neumann as the guy that remote controlled the mind of people with electronics, but not mentioning neuro-chirurgical doctors that would be required to add an interface to the brain like neuralink. It explicitly talks not about possible technology like stromociever or us4877027.
There are also scenes about women, goddess what could imply that one of the triggers to control and dissociate the first love like the situation with claudine drove me to many suicide attempts and the possible rape of the father of the so called "#Grosimorder" girlfriend to drive of him to murder his grandmother and i bet the house of the grandmother was inherited to the father of the "#Grosimorder"
