

Debris-X Foucault

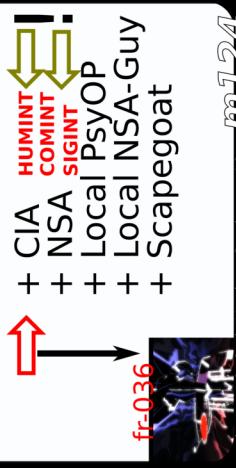

Inventor: ~~xxxxx~~ **Year:** ~???

debris-x.org - I ended up on this page not because searching for porn (images only 200x10px) was searching for psychological therapy to find out what they did to me in childhood. I found that there is a concept called **Sexualität&Dispositiv** (German). "In Foucault's theory of social power, sexuality occupies a central position." Mouse in The Matrix. To deny our own impulses is to deny the very thing that makes us human. Unfortunately this concept also used to force Soldiers to kill innocent People. By prohibiting the instinct and promise that they would end this they force them to do things they would otherwise not do. Don't join the dark side, do only consensual things and only with equal aged people.

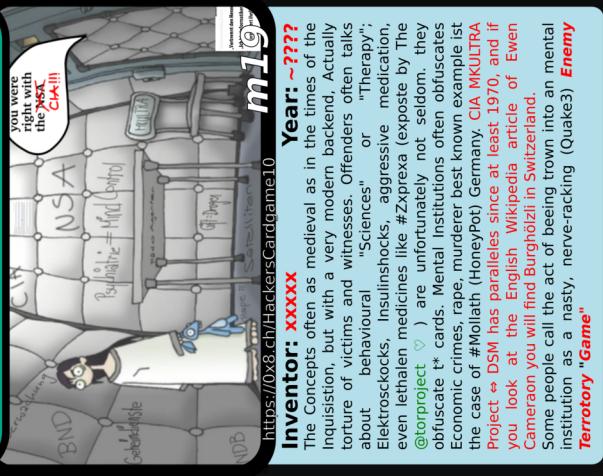

Sexual integrity of young girls and blame young boys for that and calling them "raist terrorist". Equal aged friends would attack the boy (m37 card). The friends maybe not realize that they have tightened themselves in a **virtual charity belt** by playing m37 card. After 40 Years of charity, pedophilia is sold as the cure, **but it is definitely not for the victims.**
